1936

Reflections—

Herein you will find a few familiar scenes and friendly faces, records of class achievements and impressions of fellow students. Only if these stimulate pleasant memories of Stockbridge and of '36 have we accomplished our purpose.

The Editors

Dedication—

The Class of 1936 respectfully dedicates its *Shorthorn* to one who has ever been found a friendly and willing adviser and whose fine, energetic spirit has maintained high standards for our attainment . . . Professor Clark L. Thayer.

The Editors

CLARK L. THAYER

When another freshman comes to college he does not make much of a splash—that is, unless somebody throws him in the pond. Thus when Clark L. Thayer arrived in the fall of 1909 there was hardly a ripple on the surface of our quiet academic life, even when the Class of 1912 pulled him through the fragrant waters of the lake; and I am sorry to remember that it was two years later before I began to notice his modest movements about the campus. From that time to the present he has constantly gained in public notice and esteem.

After a while he went away to Cornell University for a period of work, study and development. This development was so marked, and so many other favorable testimonies were constantly coming to light, that we were glad in 1919 to invite him back to a permanent place in our Department of Floriculture and in his Alma Mater. Here he has become one of the solid fixtures—a man of poise and character on whom the whole college community implicitly relies.

Professor Thayer has always taken a hearty interest in students as persons and in their peculiar affairs. His work for years as chairman of the Student Life Committee has stood in evidence of this sincere and effective interest.

He has also made a high professional reputation with the florists of Massachusetts and of New England. He was one of the leaders, for example, in the organization of the New England Flower Producers' Association and is still their very active secretary.

Finally, Professor Thayer is an established and highly appreciated citizen of his community, not merely upon the college campus, but in the larger neighborhood outside. To illustrate here again, he is a deacon in the church. And, unless my memory tricks me, so was his father before him. All of which just goes to show that fine character, piety and old-fashioned Yankee common sense still run in families—that is, in some families.

FACULTY

Top row—left to right:

Grant B. Snyder, Alden P. Tuttle,
Clark L. Thayer, S. Church Hub-
bard, Donald E. Ross, Lyle L. Blun-
dell, Rudolph O. Monosmith.

Second Row:

Frank R. Shaw, William H. Davis, Fred C. Sears,
Oliver C. Roberts, Arthur P. French, Ralph A.
Van Meter.

Third Row:

Robert P. Holdsworth, J. Harry Rich, Reuben E.
Trippensee, James D. Curtis, Guy V. Glatfelter.

Fourth Row:

Charles H. Thayer, Karol Kucinski, Benjamin Isgur, Lawrence S.
Dickinson.

Fifth Row:

Ernest J. Radcliffe, Nathan Rakieten, Miner J. Markuson.

Sixth Row:

Edna L. Skinner, Margaret Hamlin.

FACULTY

Top row—left to right:

Rollin H. Barrett, Adrian H. Lindsey, John B. Lentz, Richard C. Foley, Clarence H. Parsons, Ralph W. Phillips, Victor A. Rice.

Second Row:

Harold W. Smart, Lorin E. Ball, Joseph R. Rogers, Jr., Llewellyn L. Derby, Curry S. Hicks, Emory E. Grayson.

Third Row:

Paul D. Isham, Ransom C. Packard, Merrill J. Mack, Harry G. Lindquist, Julius H. Frandsen.

Fourth Row:

William C. Sanctuary, Luther Banta, John H. Vondell, John C. Graham.

Fifth Row:

George F. Pushee, John B. Newlon, William H. Tague.

Sixth Row:

Ethel W. Blatchford, Mrs. Curry S. Hicks.

LORIN E. BALL, B.S., Instructor in Physical Education

Born 1898. B.S., M.A.C., 1921. Coach of Freshman Basketball, 1921-25. Coach of Freshman Baseball, 1922-24. Attended Superior, Wisconsin Coaching School, 1924. Senior Leader, Camp Najerog for Boys, 1924. Treasurer, Western Massachusetts Board of Approved Basketball Officials, 1924-25. Coach of Varsity Baseball, 1925-31. Coach of Varsity Hockey, 1925—. Attended University of Wisconsin Summer School, 1926. Director of Stockbridge School Athletics and Coach of Football and Basketball, 1925—. Varsity Club, Q.T.V.

LUTHER BANTA, B.S., Assistant Professor of Poultry Husbandry

B.S., Cornell University, 1915. Head of the Department of Poultry Husbandry, New York State School of Agriculture, 1915-18, at Alfred University. Instructor of Poultry Husbandry, M.S.C., 1918-20. Assistant Professor of Poultry Husbandry, M.S.C., 1920—. Sigma Pi, Poultry Science Association.

ROLLIN H. BARRETT, M.S., Assistant Professor of Farm Management

Born 1891. B.S., Connecticut Agricultural College, 1918. Assistant County Agricultural Agent, Hartford County, Connecticut, 1918-19. Instructor, Vermont State School of Agriculture 1919-20. Principal, 1920-25. M.S., Cornell University, 1926. Central Officer's Training School, Camp Lee, Va., October, 1918 to January, 1919. Assistant Professor of Farm Management, M.A.C., 1926—. Phi Mu Delta.

ETHEL W. BLATCHFORD, B.S., Instructor of Physical Education for Women

Born 1910. Graduate of Posse-Nissen School of Physical Education, 1929. Recreational Therapist at Taunton State Hospital, Taunton, Mass., 1929-30. B.S., M.S.C., 1934. Instructor of Physical Education for Women, M.S.C., 1934—. Member of Delta Psi Kappa, Professional in Physical Education.

LYLE L. BLUNDELL, B.S., Professor of Horticulture

Born 1897. B.S., Iowa State College of Agriculture and Mechanic Arts, 1924. With Olmsted Brothers, Landscape Architects, 1924-31. Professor of Horticulture, M.S.C., 1931—. Gamma Sigma Delta.

JAMES D. CURTIS, M.F., Instructor in Forestry

B.A., University of British Columbia, 1929. B.A.Sc., (Forestry) University of British Columbia, 1930. M.F., Harvard University, 1934. Topographer Campbell River Timber Company, 1928. Research Assistant, B.C. Forest Service, 1930-32. Forest Surveys Division, B.C., Forest Service, 1935. Instructor in Forestry, M.S.C., 1935. Senior Member Canadian Society of Forest Engineers. Member of Society of Professional Engineers. Alpha Delta Phi.

WILLIAM H. DAVIS, Ph.D., Assistant Professor of Botany

Ph.B., New York State Teachers College. A.B., Cornell University. M.A. and Ph.D., University of Wisconsin. Assistant in Science, New York State Teachers' College and Cornell. Professor of Botany, Nature Study and Agriculture, Iowa State Teachers College. Assistant Professor of Botany, M.S.C., 1922—. Sigma Xi.

LLEWELLYN L. DERBY, Assistant Professor of Physical Education

Born 1893. Unclassified Student, M.S.C., 1915-16. Assistant in Physical Education, 1916-17. U. S. Army, 1917-19. Instructor in Physical Education, 1919-20. Varsity, Freshman and S.S.A. Coach of Track, 1921—. Harvard Summer School of Physical Education, 1921. Springfield Summer School of Physical Education, 1925 and 1930. University of Illinois Summer School of Physical Education, 1926. M.S.C. Summer School, 1931. Assistant Professor of Physical Education, 1927—. Secretary and Treasurer, Eastern Inter-collegiate Athletic Association, 1926—. Member, Advisory Committee, New England Inter-collegiate Amateur Athletic Association, 1932-33. Member of Association of College Track Coaches of America.

LAWRENCE S. DICKINSON, B.S., Assistant Professor of Agronomy

Born 1888. B.S., M.S.C., 1910. Superintendent of Grounds, M.S.C., 1911-30. Leave of Absence, 1919. Instructor in Horticulture and Superintendent of Greenhouses, Walter Reed Hospital, Washington, D. C., 1919-20. Assistant Professor of Horticulture, M.S.C., 1923-31. Assistant Professor of Agronomy, M.S.C., 1931—. Phi Sigma Kappa.

JULIUS H. FRANDSEN, M.S., Professor of Dairy Industry and Head of the Department

Born 1877. B.S.A., Iowa State College, 1902. M.S., Iowa State College, 1904. Assistant Station Chemist, Iowa State College, 1902-04. Dairy Chemist, Hazelwood Creamery, Portland, Oregon, 1904-07. Professor of Dairying, University of Idaho, 1907-11. Professor of Dairy Husbandry, University of Nebraska, 1911-21. Dairy Editor and Councillor, Capper Farm Publications, 1921-26. Member of American Dairy Science Association, Member of Society for Promotion of Agricultural Science. During World War, Chairman of Dairy Food Administration Work, State of Nebraska. Founded and for Ten Years Editor of Journal of Dairy Science. Professor and Head of the Department of Dairy Industry, M.S.C., 1926—. Gamma Sigma Delta, Phi Kappa Phi.

ARTHUR P. FRENCH, M.S., Assistant Professor of Pomology

B.S., Ohio State University, 1921. M.S., M.S.C., 1923. Investigator in Pomology M.S.C. Experiment Station, 1921-23. Instructor in Pomology, M.S.C., 1923-29. Assistant Professor in Pomology, 1929—. Alpha Zeta, Sigma Xi, Alpha Tau Omega, Phi Kappa Phi.

RICHARD C. FOLEY, M.S., Instructor in Animal Husbandry

B.S., M.S.C., 1927. M.S., M.S.C., 1931. Herdsman, Stannox Farm, 1927-29. S.N.P.C. Fellowship in Pasture Management M.S.C. 1929-30. Temporary Instructor in Animal Husbandry, M.S.C., 1929-30. Instructor in Animal Husbandry, M.S.C., 1931—. Sigma Phi Epsilon, Phi Kappa Phi.

GUY V. GLATFELTER, M.S., Assistant Professor of Animal Husbandry and

Personnel Officer of the Placement Service

Born 1893. B.S., Pennsylvania State College, 1919. M.S., Iowa State College, 1920. Assistant Professor of Animal Husbandry, M.S.C., 1921—. Personnel Officer of the Placement Service, M.S.C., 1933—.

JOHN C. GRAHAM, B.S., Agr., Professor of Poultry Husbandry and

Head of the Department

Milwaukee State Normal School, 1894. Student of Chicago University, Summers of 1894-98. Teachers' Institute Work in Wisconsin, 1894-1907. B.S., Agricultural University of Wisconsin. Associate Professor of Poultry Husbandry, M.S.C., 1911-14. Professor of Poultry Husbandry, M.S.C., 1914—. Member of the American Association of Investigators and Instructors in Poultry Husbandry. Organizer and Director of the Agricultural Department of the Red Cross Institute, Baltimore, Md., For the Training of Blinded Soldiers, 1919-29, while on leave of absence.

EMORY E. GRAYSON, B.S., Director of Placement Service

Born 1894. B.S., M.S.C., 1917. Farm Bureau Work at Gardner, Mass., 1917-18. Field Artillery, Camp Taylor, Louisville, Ky., O.T.C., 1918. Assistant Football Coach, M.S.C., 1919. Coach of Two Year Athletics, M.S.C., 1919-24. Baseball Coach and Assistant Coach in Football and Basketball, Amherst College, 1924-26. Associate Professor of Physical Education, Amherst College, and Coach of Baseball, Basketball, and Assistant Coach of Football, 1926-27. Supervisor of Placement Training, M.S.C., 1927-34. Director of Placement Service, 1934—. Alpha Sigma Phi, Adelphia.

MARGARET HAMLIN, B.A., Placement Officer for Women

B.A., Smith College, 1904. Agricultural Counselor for Women, M.S.C., 1918—.

CURRY S. HICKS, M.Ed., Professor of Physical Education and Hygiene and
Head of the Department

Born 1885. Michigan Agricultural College, 1902-03. B.Pd., Michigan State Normal College, 1909. Assistant in Physical Education, Michigan State Normal College, 1908-09. Edward Hitchcock Fellow in Physical Education, Amherst College, 1909-10. Director of Athletics, Michigan State Normal College, 1910-11. Assistant Professor in Physical Education and Hygiene, M.S.C., 1911-14. Associate Professor, 1914-16 and Professor, 1916—. M.Ed., Michigan State Normal College, 1924.

MRS. CURRY S. HICKS, B.A. Physical Director for Women

Michigan State Normal College, 1909. B.A., Michigan State Normal College, 1925. Instructor in Physical Education for Women, M.S.C., 1918-27. Physical Director, 1927—.

ROBERT P. HOLDSWORTH, M.F., Professor of Forestry and Head of the Department

Born 1890. B.S., in Forestry, Michigan State College, 1911. M.F., Yale, 1928. Royal College of Forestry, Stockholm, Sweden, 1928-29. Student Assistant, U.S. Forest Service Kootenai National Forest, 1911. Forest Assistant, U.S. Forest Service, 1912-13. Administrative Assistant and Forest Examiner in charge of White Top Purchase Area, 1913-14. Secretary, Stone and Downer Co., Boston, 1914-27. Captain, Infantry, U.S.A., Two years. Professor of Forestry, University of Arkansas, 1929-30. Professor of Forestry, M.S.C., 1930—. Senior Member, Society of American Foresters.

S. CHURCH HUBBARD, Assistant Professor of Floriculture

1909-1915 with A. N. Pierson, Inc., Cromwell, Conn., as Propagator and Section Foreman of Roses, Superintendent and Salesman of Retail Department. Vice-President and Manager of F. W. Fletcher, Inc., of Auburndale, Mass., 1915-16. Superintendent in charge of Test Grounds of American Iris Society, American Rose Society, American Peony Society, American Gladiolus Society, and American Sweet Pea Society at Cornell University, 1916-21. Greenhouse Foreman and Instructor in Floriculture, M.S.C., 1921-29. Assistant Professor of Floriculture, M.S.C., 1928—.

BENJAMIN ISGUR, M.S., Instructor of Agronomy

Born 1911. B.S., Massachusetts State College, 1933. M.S., Massachusetts State College, 1935. Instructor of Agronomy, 1935. Phi Kappa Phi.

PAUL D. ISHAM, Ph.D., Instructor in Horticultural Manufactures

B.S., M.S.C., 1929. Chemist, Plymouth Cordage Co., North Plymouth, Mass., 1929-1931. Research Fellow, M.S.C., 1931-34. M.S., M.S.C., 1932. Technical Assistant, M.S.C., 1934-35. Ph.D., M.S.C., 1935. Instructor in Horticultural Manufactures, 1935—. American Chemical Society. Phi Kappa Phi.

KAROL KUCINSKI, B.S., Instructor in Agronomy

Born 1911. B.S., Massachusetts State College, 1934., Massachusetts Agricultural Experiment Station, 1935., Instructor in Soils and Crops at Massachusetts State College, 1935—.

JOHN B. LENTZ, A.B., V.M.D., Professor of Veterinary Science and

Head of the Department

Born 1887. A.B., Franklin and Marshall College, 1908. V.M.D., School of Veterinary Medicine, University of Pennsylvania, 1914. Teaching and coaching at Franklin and Marshall Academy, 1908-11. Assistant Professor of Veterinary Science and College Veterinarian, M.S.C., 1922-27, Head of the Department, 1927—. Phi Kappa Phi, Phi Sigma Kappa.

HARRY G. LINDQUIST, M.S., Instructor in Dairying

Born 1895. B.S., M.S.C., 1922. Graduate Assistant, University of Maryland, 1922-24. M.S., University of Maryland, 1924. Baltimore City Health Department, Summer, 1924. Instructor, University of Maryland, 1924-25. Graduate Assistant, Ohio State University, 1925-27. Instructor in Dairying, M.S.C., 1927—.

**ADRIAN H. LINDSEY, Ph.D., Professor of Agricultural Economics and
Head of the Department**

Born 1897. B.S., University of Illinois, 1922. M.S., Iowa State College, 1923. Ph.D., Iowa State College, 1929. Northwestern University, Summer of 1927. Instructor at Alabama Polytechnical Institute, 1923-25. Fellow at Iowa State College, 1925-26. Assistant Professor at Iowa State College, 1926-29. Professor of Agricultural Economics, M.S.C., 1929—. Pi Gamma Mu.

MERRILL J. MACK, M.S., Assistant Professor of Dairy Industry

Born 1902. B.S., Pennsylvania State College, 1923. Graduate Assistant in Dairying, M.S.C., 1923-24. Research Fellow in Dairying, University of Wisconsin, 1924-25. M.S., University of Wisconsin, 1925. Instructor in Dairying, M.S.C., 1925-27. Assistant Professor, 1927—. Alpha Zeta, Phi Kappa Phi.

MINER J. MARKUSON, B.S., Assistant Professor of Agricultural Engineering

Born 1896. B.S., of Architecture, University of Minnesota. Assistant Professor of Agricultural Engineering, Virginia Polytechnical Institute. Non-commissioned Officer, 210th Engineers, 10th Division of the U. S. Army, 1918-19. Assistant Professor of Agricultural Engineering, M.S.C., 1925—.

RUDOLPH O. MONOSMITH, B.L.A., Instructor of Horticulture

B.S., Mississippi State, 1929. Instructor Horticulture, Miss. State, 1929-1931. B.L.A., Mass. State, 1933. Assistant Professor Horticulture, Miss. State, 1933-34. Assistant Extension Horticulturist, Okla. A. & M., 1934-35. Member Alpha Zeta.

JOHN B. NEWLON, Instructor in Agricultural Engineering

Born 1884. Instructor in Forge Work, M.S.C., 1919. Special Student at Massachusetts Institute of Technology, 1921. Instructor in Agricultural Engineering, M.S.C., 1921—.

NATHAN RAKIETEN, Ph. D., Instructor in Physiology

Born 1908. B.S., Wesleyan University, 1929. Ph.D., Yale University, 1933. Porter Research Fellow, American Physiological Society, 1933-34. Instructor, M.S.C., 1934—. Member Student Health Department. Member A.A.A.S., Sigma Xi.

JAY HARRY RICH, B.S., Assistant Professor of Forestry

Born 1888. B.S., New York State College of Forestry, 1913. Assistant Professor, M.S.C., 1933—. Sigma Xi, Phi Kappa Alpha.

RANSOM C. PACKARD, M.S., Vocational Instructor in Bacteriology

Born 1886. B.S.A., University of Toronto, 1911. M.S., Massachusetts State College, 1933. Instructor in Bacteriology, M.S.C. 1927—.

CLARENCE H. PARSONS, M.S., Assistant Professor of Animal Husbandry and

Superintendent of the Farm

Born 1904. B.S., M.S.C., 1927. Manager of Farm 1927-28. Instructor in Animal Husbandry, M.S.C., 1928-29. New England Fieldman, Synthetic Nitrogen Products Corp., 1929-1930. Assistant Professor of Animal Husbandry and Superintendent of College Farm, 1931—. M.S., M.S.C., 1933. Member of American Society of Animal Production. Q.T.V.

RALPH W. PHILLIPS, Ph.D., Instructor in Animal Husbandry

Born 1909. B.S., Berea College, 1930. M.A., University of Missouri, 1931. Ph.D., University of Missouri, 1934. Instructor, M.S.C., 1933—. Gamma Alpha, Gamma Sigma Delta, Sigma Xi.

GEORGE F. PUSHEE, Instructor in Agricultural Engineering

I.C.S., 1906. State Teachers Training Class, Springfield Vocational College, 1914-15. Assistant Foreman and Millwright, Mt. Tom Sulfide Pulp Mill, 1915-16. Instructor in Agricultural Engineering, M.S.C., 1916—. Summer School Dramatics and Teacher Training, M.S.C., 1923-25. Counsellor at Camp Medomak Summers, 1928—. Special Course, M.S.C., 1924-25.

ERNEST J. RADCLIFFE, M.D., Professor of Hygiene and Student Health Officer

Born 1898. M.B., University of Toronto, 1923. M.D., University of Toronto, 1929. Private and Clinic Practice. Canadian Field Artillery, 1916-19. Professor of Hygiene and Student Health Officer, M.S.C., 1930—. Massachusetts Medical Society, American Medical Association.

VICTOR A. RICE, M.Agr., Professor of Animal Husbandry, Head of the Department, and Head of the Division of Agriculture

Born 1890. B.S., North Carolina State College, 1917. M.Agr., M.S.C., 1923. Farm Manager, 1910-12. Swine Specialist for State of Massachusetts, 1916-19. Professor of Animal Husbandry, M.S.C., 1919—. Phi Kappa Phi.

OLIVER C. ROBERTS, B.S., Assistant Professor in Pomology

Born 1895. B.S., M.S.C., 1919. Teacher of Agriculture in West Lebanon Academy, West Lebanon, Maine, 1920-22. Foreman of Pomology Department, M.S.C., 1923-26. Instructor in Pomology, M.S.C., 1926-1935. Assistant Professor in Pomology, 1935—.

JOSEPH R. ROGERS, JR., Instructor in Physical Education

Born 1906. Worcester Polytechnic Institute, 1930. Instrument Man, Metropolitan District Water Supply Commission, 1930-31. Instructor in Physical Education, M.S.C., 1931—. Member American Society of Mechanical Engineers.

DONALD E. ROSS, B.S., Instructor in Floriculture and Greenhouse Foreman

Born 1896. B.S., M.S.C., 1925. Nurseryman at A. N. Pierson, Inc., Cromwell, Conn., 1925-26. Nurseryman Superintendent at the Rose Farm, White Plains, N. Y., 1926-28. Attended Summer School, M.A.C., 1928. Served in France with 101st Infantry, 26th Division, 1917-19. Alpha Gamma Rho.

WILLIAM C. SANCTUARY, M.S., Professor of Poultry Husbandry

Born 1888. B.S., M.S.C., 1912. New York State School of Agriculture, Morrisville, N. Y., 1912-18. U. S. Army, 1917-18. Professor of Poultry Husbandry, M.S.C., 1921. Acting Director of New York State School of Agriculture, 1924-25. Professor of Poultry Husbandry, M.S.C., 1925—. Kappa Delta Phi, Theta Chi.

FRED S. SEARS, M.S., Professor of Pomology and Head of the Department

Born 1866. B.S., Kansas Agricultural College, 1892. Assistant Horticulturist, Kansas Experiment Station, 1892-97. M.S., Kansas Agricultural College, 1896. Professor of Horticulture, Utah Agricultural College, 1897. Director of Nova Scotia School of Horticulture, Wolfville, N. S., 1897-1904. Professor of Horticulture, Nova Scotia Agricultural College, Truro, N. S., 1905-07. Professor of Pomology, M.S.C., 1907—. Phi Kappa Phi.

FRANK R. SHAW, B.S., Instructor in Entomology and Beekeeping

Born 1908, Belchertown, Mass. B.S., M.S.C., 1931. Graduate work at Cornell University, 1931-35. Assistant Experiment Station Entomologist, Mass. Agric. Experiment Station, Summers, 1930-34. Assistant in Insect Morphology and Histology, Cornell University, 1931-34. Instructor in Economic Entomology, Cornell University, 1934-Jan. 1935. Instructor in Entomology and Beekeeping, M.S.C., 1935—. Member of American Association of Economic Entomologists; Entomological Society of America. Sigma Xi.

EDNA L. SKINNER, M.A., Professor of Home Economics, Head of Division
and Advisor of Women

M.A., Columbia University; B.S., Columbia University; M.Ed., Michigan State Normal College. Instructor at Teachers College, Columbia University; Head, Household Science, James Millikin University. Professor of Home Economics, Head of Division, Massachusetts State College, 1919—.

HAROLD W. SMART, A.B., LL.B., Vocational Instructor in Business Law, Business

English, Public Speaking, Dramatics, and Rural Sociology
Born 1895. LL.B., (Cum Laude) Boston University, 1918. Boston University, 1919. Practiced Law, 1919-20. Instructor in Business Law, M.S.C., 1921—. A.B., Amherst College, 1924. Phi Delta Phi, Woolsack, Delta Sigma Rho, Adelphia.

GRANT B. SNYDER, M.S., Professor of Olericulture and Head of the Department

B.A.A., Ontario Agricultural College, Toronto University, 1922. Assistant Plant Hybridist at Ontario Agricultural College, 1919-21. Instructor in Vegetable Gardening, M.S.C., 1921-26. M.S., Michigan State College, 1931. Assistant Professor of Vegetable Gardening, M.S.C., 1926-1935. Professor of Olericulture and Head of the Department, 1935.

WILLIAM H. TAGUE, B.S., Assistant Professor of Agricultural Engineering

Born 1892. B.S., Agricultural Engineering, Iowa State College. Assistant Professor of Agricultural Engineering, M.S.C., 1929—.

CHARLES HIRAM THAYER, Vocational Instructor in Agronomy

Born 1884. Winter School, M.A.C., 1904. Manager, Brooke Farm, Amherst, 1908-13. Manager Fillmore Farm, Weston, Massachusetts, 1913. Assistant in Agronomy, Winter School, M.A.C., 1915-18. Instructor in Agronomy, M.A.C., 1918—.

CLARK L. THAYER, B.S., Professor of Floriculture and Head of the Department

Born 1890. B.S., M.S.C., 1913. Graduate Work in Floriculture and Plant Breeding, Cornell University, 1913-14. Instructor in Floriculture, Cornell University, 1914-19. Instructor in Floriculture, M.S.C., Spring Term, 1917. Associate Professor and Head of Department, M.S.C., 1919-20. Professor of Floriculture and Head of the Department, M.S.C., 1920—. U. S. Army, 1918. Alpha Gamma Rho, Phi Kappa Phi, Pi Alpha Xi.

REUBEN E. TRIPPENSEE, Ph.D., Professor of Wildlife Management, Division of Forestry

Born 1894. B.S., Michigan State College, 1920. M.S., University of Michigan. Ph.D., University of Michigan, 1934. Farm Foreman, L. W. Watkins Farms, Manchester, Michigan, 1920-24. Instructor in Science High Schools, Saginaw, Michigan, 1931. Jr. Instructor in Zoology, School of Forestry and Conservation, University of Michigan, 1931-34. In charge of Wildlife Management, U. S. Forest Service, R. 9, Milwaukee, Wisconsin, 1935. Professor of Wildlife Management, M.S.C., 1936—.

ALDEN P. TUTTLE, M.S., Instructor in Vegetable Gardening

Born 1906. B.S., M.S.C., 1928. M.S., Pennsylvania State College, 1930. Graduate Assistant in Vegetable Gardening, Pennsylvania State College, 1928-1930. Instructor in Vegetable Gardening, M.S.C., 1930—. Gamma Sigma Delta.

RALPH A. VAN METER, M.S., Professor of Pomology and

Head of the Division of Horticulture

Born 1893. B.S., Ohio State University, 1917. Extension Specialist in Pomology, M.S.C., 1917. Served in France with the 317th Field Signal Battalion, 1918-19. Assistant Extension Professor of Pomology, M.S.C., 1919-1921. Extension Professor of Pomology, M.S.C., 1921-23. Professor of Pomology, M.S.C., 1923—. Delta Theta Sigma, Phi Kappa Phi.

JOHN H. VONDELL, Instructor in Poultry Husbandry and Superintendent of Poultry Plant

Born 1898. Instructor, U. S. Veterans Bureau, Baltimore, Md., 1922-23. Superintendent of Poultry Plant, M.S.C., 1923-29. Instructor in Poultry Husbandry, M.S.C., 1929—.

Robert W. Adams

General Horticulture

Housatonic

1914. Basketball, 1, 2.

His ever cheerful greeting reveals a pleasant nature. Though a native of the Western hills, he has interests elsewhere. At Mt. Auburn he acquired the art and science of digging graves—with the corners square.

Edward H. Allen

Poultry Husbandry

South Hadley

1913. Alpha Tau Gamma; Football, 1, 2; Student Council, 2; Poultry Club, 2; Class President, 2; Freshman Committee Chairman, 2.

We are glad to have our class represented by Prexy. The Poultry majors recall their revels with him. His prowess on the gridiron and his scholastic attainments merit our sincerest approbation.

Fred H. Allen

Animal Husbandry

Sterling

1913. Wrestling, (State), 1, 2; Religious Council, 2; Animal Husbandry Club, 2.

Fred's ambition and unmeasured ability have placed him among the first in scholarship. Very naturally, he stands high in the well-merited regard of his friends.

Kenneth W. Alton

Dairy Manufactures

Dudley

1914. Kolony Klub; Football, 1, 2; Basketball, 1, 2; Dairy Club, 2.

All envy Ken for his ability to sleep through classes and still secure favorable reports. His athletic record is notable, and we cannot forget his cheerfulness.

Fred A. Anable

Floriculture

Westboro

1915. Kolony Klub; Cross Country, 1, Captain, 2; Track, 1, Captain, 2; Athletic Council, Secretary, 2.

Fortunately this red-head has a smile quicker than his temper—a true indication of his good nature. Above all else, we shall remember how successfully he slept through his classes, and we shall not forget his splendid leadership of an undefeated cross country team.

Norman S. Bailey

Floriculture

Newton Centre

1912. *Shorthorn*, Editor-in-Chief, 2.

A grand friend is Norm. He is capable, rather quiet, and possesses a distinct sense of humor. Since the surprise he sprang while on placement, he has become the confidant of enamored classmates.

Lawrence F. Barry

Dairy Manufactures

Roslindale

1915. Dairy Club, 1, 2; Animal Husbandry Club, 1.

Coach is an ardent debater and he is especially fond of exposing his opinion on the fundamentals of football. He consistently applies himself to his work with characteristic persistency.

Fenwick Beekman, Jr.

Animal Husbandry

Katonah, New York

1913. Alpha Tau Gamma, Secretary, 2; Animal Husbandry Club, 1.

Foreign training developed in Beekie certain admirable manners that demand our approbation. Weekend trips to Poughkeepsie seem a part of his schooling. We shall remember his expressed liking for fine horses.

Frank S. Bishop

Dairy Manufactures Springfield, Vermont
1915. K. O. Club, 1, 2; Agronomy Club, 1,
President, 2; Animal Husbandry Club, 1, 2.

Because of his modesty, it is difficult to make Frank's acquaintance. His scholastic record is worthy of commendation.

Randolph C. Blackmer

Animal Husbandry Hardwick
1915. Cross Country, 2; Band, 2; Agronomy
Club, 2; Animal Husbandry Club, 2

Blackie is an able, conscientious student who gives his best to his work. We have real evidence of his athletic inclinations. His apparent shyness will not hinder his future achievement.

Robert E. Bossardt

Animal Husbandry Winchendon
1916. Animal Husbandry Club, 1, 2.

With us only a year, Bob has impressed all with his capability, his fair hair, and his blue eyes. Friendship with a notorious threesome has not lessened his potentialities, we trust.

J. Emerson Bransford

Floriculture Patchogue, New York
1915. *Shorthorn*, Assistant Business Manager, 2;
Orchestra, 1, 2; Band, 1.

His wholehearted application to his work brings merited reward. Here knowledge is his aim, and he seeks it relentlessly—yet there is time for his music, and, lately, Em has been acquiring other social amenities—of which we fully approve.

Edward T. Brown

General Horticulture Marblehead

1916. Kolony Klub; Freshman Class Treasurer; Hockey, 1, 2.

Prominent in Class activities and important as chef and valet in his apartment, the good natured Brownie is invaluable to us. What he has so well done here will surely bring its reward.

Walter M. Bryant

Animal Husbandry

Hyde Park

1912. Animal Husbandry Club, 1, 2.

Coming here with advantages of a literary background, Walt has shown himself to be a very enthusiastic student in a distinctly different field. The ardent spirit which he gives to his work indicates splendid achievement hereafter.

Kenneth H. Buell

Dairy Manufactures

Petersham

1915. Kolony Klub; K. O. Club; Dairy Club, 2; Band, 1; Baseball, 2; Basketball, 1, 2; *Shorthorn*, Staff Assistant, 2; Student Council, 2.

Doubtless Ken will make sizeable holes in the interference he meets with in life. He has a congenial personality, and placement training revealed the inherent determination of a good worker.

Harold F. Carlson

Floriculture

Brighton

1914. Alpha Tau Gamma, President, 2; Horticultural Show, 1, exhibit, 2; Basketball, 1, 2; Student Council, 2.

Alpha Tau Gamma recognized his capacity for leadership. Hal's associates respect him for his characteristic responsibility, fairness, and willingness to cooperate. Furthermore, there was always Ann—our sincerest wishes for your happiness.

Hugo E. T. Carlson

General Horticulture West Roxbury

1914. Track, 1, 2; Horticultural Show, 2.

So eager for learning is Hugo that he adds classes to his curriculum. Previous experience has given him a practical and useful knowledge of landscaping. His steady pursuit of problems to a satisfactory solution is a worthy trait.

Alfred M. Chace

Dairy Manufactures South Dartmouth

1915. Alpha Tau Gamma; Student Council, 1, President, 2; Athletic Council, 1, President, 2; Football, 1, Captain, 2; Basketball, 1.

Prominent in Class affairs and activities, Al will be remembered for his boisterous good nature, his generosity, and his capability on the gridiron.

Robert A. Chapin

Animal Husbandry, Special Sheffield

1917. Kolony Klub, Historian, 2; Animal Husbandry Club, 2.

A welcoming hand and a ready smile make Bob a pleasant companion. We wonder if it is the Greenfield air that has such a noticeable effect upon him?

Nelson C. Christensen

Vegetable Gardening Wilson, Connecticut

1914. Alpha Tau Gamma; Football, 1, 2.

Chris, as a guard on the eleven, always hit the line squarely. As a practical vegetable grower he will meet all exigencies in the same manner. His determination to conclude whatever he starts is remarkable. Remember the Deerfield Rally talk?

Ralph D. Cooley

Animal Husbandry West Granville

1916. Cross Country, 1, 2; Track, 1; Agronomy Club, 1, 2; Animal Husbandry Club, 1, 2.

Applying himself diligently, Ralph has made a fine record for himself in his studies. Our fine Cross Country team was strengthened by his presence. An authority on Ayrshires, he ever gladly exposes their merits.

Harold W. Corkum

Animal Husbandry Sutton

1913. *Shorthorn*, Statistical Editor, 2; Animal Husbandry Club, 1, 2.

Steadied by wider experience and greater responsibilities, Hal is frequently a much needed balance for his classmates. He enjoys thorough discussions with his professors of problems that arouse his practical interests.

Pardon W. Cornell

General Horticulture Dartmouth

1914. Kolony Klub; *Shorthorn*, Activities Editor, 2; Football, 1, 2.

Puddy apparently enjoys the icy blasts of winter while most of us on the campus shiver. Always ready to assist others and ever a good student, he has a marked capacity for success.

Alfred M. Davenport, Jr.

Floriculture Watertown

1915. Kolony Klub, Secretary, 2.

Al says he came for a good time, and his acknowledged attendance on six dances a week would indicate success. However that may be, his blond hair must be partially responsible for all the feminine company he enjoys.

Russell B. Davis

Animal Husbandry

Westport

1917. Animal Husbandry Club, 2.

Through his friendly ways Russ readily became a part of our school life this year. His activities at the "Mem" Building will long be remembered.

Ellison D. Dodge

Floriculture

Belchertown

1914. Horticultural Show, 1, 2.

Why Buzz? We cannot surely tell, but it may be that his size coupled with his constant occupation with one thing or another—such as tales of his hometown which often interrupted class routine, to our enjoyment—gained for him the title.

John G. Donovan

General Horticulture

Cohasset

1914. Basketball, 1; Horticultural Show, 1, 2; Dance Committee, 1.

We are told that Shotgun is highly rated as a public speaker—probably a reflection of his uncle, the Governor's, ability. If a smile is truly indicative of happiness, may he ever wear one as he does so frequently.

William E. Doty

Floriculture

West Springfield

1917. Kolony Klub.

Even his fraternity brothers know little of Bill, for he is most unobtrusive. He pays exclusive attention to his own affairs—which many might profitably exemplify. We learned that he is well acquainted with nature; his glance is observant and quick.

Lloyd A. Douty

Animal Husbandry

Worcester

1916. Animal Husbandry Club, 2.

Having won fame as a public speaker at North High, Hank merits our commendation for his conscientious efforts here in overcoming such obstacles as genetics.

Albert O. Fischer, Jr.

Poultry Husbandry

Vineyard Haven

1914. Alpha Tau Gamma, Vice President, 2; Football, 1, 2; Basketball, 1; Baseball, 2; Poultry Club, Secretary, 2; Senior Reception Committee, 1.

The jovial spokesman of the division is Al. His greeting might falsely indicate a Fascist relationship. On the athletic field, he plays in all seriousness and gives earnest support to his team.

R. Everette Fish

Animal Husbandry

Gill

1914. Football, 1.

Ev has safely sailed the rough waters of commuting, placement training, and academic life. It is our wish that the future fulfill the present promise of good fortune.

Francis E. Fournier

Animal Husbandry

North Dartmouth

1916. Kolony Klub; Football, 1, 2; Animal Husbandry Club, 2.

Nonchalant Fran accepts obstacles casually. He is most serious when wrestling. Incidentally, if there still be any doubt, we would establish the fact that a ham is (or was) part of a pig.

Daniel A. S. Gleize

General Horticulture

Stockbridge

1915. Cross Country, 1, 2.

Out of the Berkshires strode thoughtful Danny with his khaki book bag over his shoulder. Many classes have been made interesting by his pointed questions. Surely his "why" attitude will enrich his life through an increased knowledge.

August J. Gomes

General Horticulture

Plymouth

1912. Alpha Tau Gamma; Horticultural Show, 2.

Lefty entertains us by poking fun at his classmates in a blustering, good spirited manner. He is an authority on Aboriculture, for he repaired, sprayed, and fed elms in Plymouth.

Thomas J. Goodwin

General Horticulture

Newton Upper Falls

1916. Football, 1, 2; Track, 2; Horticultural Show, 1, 2; Stockbridge Winter Carnival Chairman, 2.

In his freshman year, Tom upheld our tradition in the Deerfield game. Lately he took a vital interest in the first Winter Carnival and helped to lay the foundation of another Stockbridge tradition.

Malcolm L. Graham

Floriculture

Bradford, Pennsylvania

1916. Kolony Klub, Treasurer, 2; Basketball, 1, 2; Cross Country, 2; Horticultural Show, 1, Refreshment Booth, 2; *Shorthorn*, Staff Assistant, 2.

A true representative of the coal and oil regions, Mac is always ready with information on these subjects. We found him ever willing to assist. No wonder the Kolony Klub telephone rings with his popularity.

Elliott D. Hall

Animal Husbandry

Dudley

1917. Kolony Klub; Animal Husbandry Club, 2; Baseball, 2.

Twitch seldom, if ever, uses grindstone methods, but he does well in his work. His capacity for learning quickly will prove an asset both to himself and to his associates.

Roland Hall

Floriculture

New Bedford

1915. Kolony Klub, Marshal, 2; Student Council, 1; Class Vice President, 2; Class President, 1; *Shortborn*, Staff Assistant, 2; Dance Committee, 1.

Remember the "buttercup" curl so well trained by certain small fingers? Sleepy is reported an excellent adviser on matters of the heart—and why not? But, seriously, our stalwart has such manly characteristics that success is predetermined.

William A. Harris

Pomology

Springfield

1886. Horticultural Show, Assisted in past three shows, exhibited fruit in 1935.

His absorption in his studies should yield truly remarkable returns. So serious is Bill that we are only aware of his presence when he freely offers his assistance on class problems.

Donald Harrison

Pomology

Jamaica Plain

1916. *Shortborn*, Literary Editor, 2.

A leader among the Pomologists, Don's spirited friendliness is contagious. We admire his talented sales-talk—as the Fords go by. He and a certain blond (don't misunderstand!) are almost inseparable.

Edwin H. Hartley

Animal Husbandry

Westfield

1915. K. O. Club, Chairman of Recreation Committee, 2; Basketball, 1, 2; Animal Husbandry Club, 1, 2.

We address him as Shorty, but be not misled. He towers above us. Ed is an enthusiastic wearer of the four leaf clover and a fine student. We admire his candid spirit.

Ann Haskell

Floriculture

Lynn

1916. S. C. S., Secretary-treasurer, 2; Student Council, Secretary, 2; Horticultural Show exhibit, 2.

Fortunate is Ann, for her charming personality secures many friends. Her classmates will never forget her snowy irruptions. And the mention of Hal should not be taken amiss.

Hammond C. Hosmer

Poultry Husbandry

Arlington

1912. Cross Country, 1, 2; Hockey, 2; Poultry Club, 2; Freshman Reception Committee, 2.

Hammy is a reliable, sincere friend. May the weekly trips to Arlington lay the foundation for a lasting happiness. Whatever he undertakes will surely be accomplished.

John W. Howe, Jr.

Dairy Manufactures

Hollis, New Hampshire

1912. K. O. Club, 2; Basketball, 2; Dairy Club, 2.

How well John applies himself to his work we may judge from his good use of his time on Campus. The humorous side of his nature displays itself frequently and enjoyably.

Roger A. Hunt

Animal Husbandry Leicester

1916. Kolony Klub; Basketball, 1, 2; Baseball, 2; Animal Husbandry Club, 2.

Being a landlubber, Lucky knows nothing of shore leave in strange ports. However, his life is replete with social affairs. But, somehow, they do not interfere with his studying and class attendance.

Frank Innes

General Horticulture Barre, Vermont

1915. Alpha Tau Gamma, Treasurer, 2; Cheer Leader, 2.

Under Frank's able leadership the cheering section encouraged our eleven with many lusty yells. His standing in scholarship and in athletics well indicates his ability.

Nicholas B. Jacobson

Animal Husbandry, Special New York, New York

1912. Agronomy Club, 1; Animal Husbandry Club, 2.

His devotion to the good he finds in life and his impatience with all that stands in its way is an inspiration to his friends. He chooses to be a rebel; we choose to consider him fondly as a fellow man.

Charles W. Jacoby

General Horticulture Newtonville

1915. Kolony Klub, Vice President, 2; Hockey, 1, 2; Horticultural Show, 1, 2.

Because of obstacles to his inter-class transportation, we have, fortunately, seen more of Wes. His Thayer Academy training was of great benefit to our Hockey team. The ease with which he finds satisfactory employment is notable.

Carl W. Jekanowski

Dairy Manufactures

Hadley

1916. Alpha Tau Gamma; Basketball, 1, 2; Dairy Club, 1, 2; Animal Husbandry Club, 1, 2.

We do not know Jek very well, for he is puzzlingly nonchalant. However, he has proven himself a capable student and a good athlete.

Paul Jenkins

Animal Husbandry

Wollaston

1916. Basketball, 1, Captain, 2; Animal Husbandry Club, 2.

This city bred lad has taken to Animal Husbandry as a duckling takes to water. Jenkie's scholastic ability is outstanding, and he is a good athlete. His achievements here are indicative of subsequent success.

J. Henry Jennings

Poultry Husbandry

Shelton, Connecticut

1910. Baseball, 2; Poultry Club, 2.

Because he takes inventory after the eggs hatch, John is chief statistician of the department. After successfully putting himself through school, we know he will make good.

William J. Jennings

Floriculture

South Natick

1914. Cross Country, 1, 2.

We know little of Joe from himself. But in him we see a conscientious student and a persevering runner who will carry on against odds. And there must be a charming reason for those visits home.

Charles D. Keefe, Jr.

Poultry Husbandry Bellows Falls, Vermont

1915. Alpha Tau Gamma; Football, 1, 2; Hockey, 1, 2; Basketball, 1, 2; Baseball, 2; Student Council Vice President, 2; Poultry Club President, 2; K. O. Club, 1, 2; Freshman Dance Committee, 1.

Chick's personality reflects the confidence of one who knows his work. Fortunate are we to have associations with this amiable fellow.

Jason T. Kelley

Floriculture, Special Framingham

1916. Kolony Klub, House Manager, 2; Hockey, Assistant Manager, 1, Manager, 2.

Though Irish of tongue, witty J—who makes classes uproarious at times with his remarks—vigorously denies such descent. It's his smiling manner that takes the edge from otherwise caustic expressions. We cannot refrain from wishing—"Orchids to you, Framingham!"

Ransom P. Kelley

Vegetable Gardening, Special Fairfield, Maine

1913. Alpha Tau Gamma, Chairman of House Committee, 2; Horticultural Show, 1, 2.

Kel (or should we address him more formally since his recent marriage?) usually bustles into class Monday morning from a pleasant week-end on his Maine farm. Happiness to you and your bride, Sir!

E. Richard Kelly

Animal Husbandry Gilbertville

1914. Alpha Tau Gamma; Animal Husbandry Club, 1, 2; Football, 2.

Here comes Dick, just ahead of the bell again! It seems that he cannot see well out of one eye. Perhaps there is a place for paddles.

Frederick O. Lawrence

Dairy Manufactures Weymouth

1914. Cross Country, Manager, 2; Basketball, 1; Baseball, 2; Dairy Club, 2; Animal Husbandry Club, 1.

We admire Fred's pleasant disposition and respect his honest, generous nature. Surely the effort he has so earnestly made here is the foundation of future achievement.

John J. Loncar

Poultry Husbandry Worcester

1915. Kolony Klub; Poultry Club, 2; K. O. Club, 2.

Swimming is John's favorite recreation, and his interest in photography is a close second. He possesses many fine qualities, as his friends are ever willing to testify.

H. Pearson Macintosh

General Horticulture Longmeadow

1914. *Shorthorn*, Staff Assistant, 2; Football, 1, 2; Hockey, 1, 2; Horticultural Show, 1, 2.

Mac is an outstanding athlete—a three letter man, in fact. His social activity and his domestic training demand recognition. His earnest, genial nature has made him many friends.

Kenneth Randall Mason

Dairy Manufactures Malden

1915. Kolony Klub; Hockey, 1, 2; *Shorthorn*, Athletic Editor, 2; Collegian Reporter, 2; Dairy Club, 1, 2; Dance Committees, 1, 2.

One of the fastest things on ice is Ken— if seeing is believing! This well-dressed dairyman is prominent in student activities, which indicates his popularity.

James D. N. Mayo

Poultry Husbandry Arlington
1911. Alpha Tau Gamma; Poultry Club, 1.

Jim is one who has learned to appreciate the value of money. He has an understanding of business that assures him the success we desire him to make.

Sherwood A. Moore

Greenkeeping Leeds
1915. Horticultural Show, 1, 2.

Dickie is a smiling fellow with a yen for surveying and general problems. He is a proficient member of the well known "three musketeers", our only remaining greenkeepers.

Earl L. Morey, Jr.

Animal Husbandry Sturbridge
1917. Kolony Klub; Football, 1, 2; Boxing, 1; Baseball, 2; Agronomy Club, 1; Animal Husbandry Club, 1, 2; Class Treasurer, 1, 2; Dance Committee, 1, 2.

Though rather quiet, Earl has become one of our outstanding men. He has the good faculty of always keeping himself occupied. That, doubtless, will be of real value to him.

Katherine B. Offutt

Animal Husbandry Southboro
1915. S. C. S., Vice President and Sergeant at Arms, 2; Class Secretary, 2.

Kay's ability, courage, friendliness, and charming boyish air have been to both classmates and faculty a constant source of amazement and inspiration.

Oscar E. Olson

Dairy Manufactures Belchertown

1915. Dairy Club, 1, 2; Outing Club, 1, 2.

"Quiz today fellows?" With these words Oscar usually announces his presence, and his scholastic attainments suggest that he is always prepared for that exigency. Above all, we enjoy his company.

Warren R. Parker

Pomology Braintree

1914. *Shorthorn*, Assistant Editor, 2; Agronomy Club, 1, 2.

Warren is a quiet and industrious student respected by his classmates for his reliable knowledge of his major subject. The blond member of a well-known partnership, he is a loyal friend and a pleasant comrade.

James W. Patten, Jr.

Animal Husbandry Sterling

1916. K. O. Club, 2; Animal Husbandry Club, 1, 2.

Jim's smile is plainly visible, but his stored up humor frequently takes us by surprise. Studies do not ruffle his composure. His alertness at lectures accounts for scholastic success.

V. Lewis Payson

Greenkeeping North Dartmouth

1915. Horticultural Show, 2; Football, Assistant Manager, 1.

The numerous friendships Viva made here are reliable indicators of his congenial nature. His sound judgment is well shown by his thoughtful planning. We know he will grow fine turf.

Robert E. Pratt

Animal Husbandry
1915.

Florence

Bob likes work and tackles it courageously. He firmly believes in the saying, "If at first you don't succeed, try, try again."

John F. Prentice

Animal Husbandry

Plymouth

1914. Alpha Tau Gamma, Sergeant at Arms, 2; Football, 1, 2; Animal Husbandry Club, 2.

The misfortune of illness has disturbed his educational routine. But John has come through with our respect for his courage, his quiet capability, and his obliging friendliness.

Merrick B. Price

General Horticulture

South Weymouth

1915. *Shorthorn*, Photographic Editor, 2; Horticultural Show, 1, 2.

At the Horticultural Show Red was a capable assistant, and much of the success of the Department's exhibit was due to his efforts. Photography is his avocation, and, though generally quiet, he delights to talk of his hobby.

Robert H. Ralston

General Horticulture

Framingham

1915. Orchestra, 1; Horticultural Show, 2; Glee Club, 2.

Bob is a noted hunter and spends much time following his hounds. Consequently, he enjoyed the trips to Mt. Toby. After we made his acquaintance, we found him good company.

Raymond W. Richardson

Pomology

West Brookfield

1915. Cross Country, 2; Track, 2; Agronomy Club, 1, Vice President, 2; Dance Committee, 2; Animal Husbandry, 1, 2; Outing Club, 1, 2; Glee Club, 2.

Ray, a fellow native despite his continual praise of Connecticut, is admired by his fellow pomologists for his indifference, his expressed knowledge of fruit growing, and his determination to succeed.

Richard A. Robbins

General Horticulture

South Natick

1913. Football, 1, 2; Basketball, 2; Hockey, 1, 2; Freshman Dance Committee, 2.

Dick occupies himself seriously with various athletic activities. We shall long remember the games in which he gave so much. Nonchalant and friendly, his company is most enjoyable.

William C. Ross

Dairy Manufactures

North Quincy

1917. Hockey, 1, 2.

Supposedly Bill utilizes his time out of class with research work in Flint Laboratory. His constant scholastic excellence supports this supposition and foreshadows his success.

John J. Ruda, Jr.

Dairy Manufactures

Dudley

1917. Basketball Manager, 2; *Shorthorn*, Business Manager, 2; Athletic Council, 2; Dairy Club, 1, 2; Animal Husbandry Club, 1, Treasurer, 2.

His capacity for doing all assignments well has demonstrated his reliability and won our sincere respect. John is recognized as an important member of the Class, and we are glad to have known his fine, friendly personality.

Donald Samson

General Horticulture

Florence

1915. Kolony Klub; Football, 2.

Silent, attentive, and immaculate—these characteristics are the keys to his fine nature. Don is a good student and a good companion.

Clinton F. Savery

General Horticulture

Marion

1915. Football, 1; Track, 2.

After completing his first year with the Class of 1935, Clint joined the C. C. C. for a while. Then he came to finish his work with us, skilled in the use of an axe, interested in Northampton, and liked by those who know him.

Barbara E. Schulte

Floriculture

Tyngsboro

1915. S. C. S., President, 2; *Shorthorn*, Art Editor, 2; Horticultural Show, 1, 2.

Charming B it is who gaily trips from class to class displaying such quiet zest in life that we who know her are bound to share her enthusiasm. Feeling that we owe much to her inspiration, we must sincerely wish her ever the best.

Lauchlan A. Smith

Vegetable Gardening, Special
1914.

Westport

Although this was his first year with us, Smitty readily made a place for himself. His quiet friendliness reveals an anxiety to become independently established.

Philip F. Smith

Floriculture

Methuen

1915. Cross Country, 1, 2; Track, 1, 2; Horticultural Show, 1, 2.

Though neither his hair nor his name are remarkably distinguishing, his lively personality—which frequently expresses itself in laboratory periods—is. Congenial, red-headed Phil will get along towards his goal, for he has perseverance.

John D. Sprague

Poultry Husbandry

Weston

1916. Poultry Club, 2.

John is a reserved classmate well-liked by those who know him. His scholastic record indicates his very real ability.

Robert F. Strong

Dairy Manufactures

Allston

1916. Manager, Cross Country, 2; *Shorthorn*, Staff Assistant, 2; Animal Husbandry Club, 1; Dairy Club, 2.

Quiet and studious as he is, we were slow to make the acquaintance of likeable Paul. We often wonder if he will return to Danbury to renew Placement friendships?

Richard C. Sturtevant

General Horticulture

Halifax

1916. Horticultural Show, 1, 2.

While we played, Dick worked. This willingness to sacrifice pleasure for an opportunity to prepare himself for the future well illustrates his earnest purpose. To such, success is assured.

John Sutherland

Pomology

Springfield

1914. *Shorthorn*, Staff Assistant, 2.

John inspires us with his friendliness, his wit, and his ability to put up with his notoriously playful classmates. With many accomplishments, he approves of life as a song and only regrets his vain attempts to sell Plymouths.

Gordon M. Taylor

Animal Husbandry

Granby

1916.

If traveling some distance westward you may find Granby. He has a reputation for deer hunting, and following a woodland trail gives him great pleasure.

William E. Thomas

Animal Husbandry

Hadley

1915. Animal Husbandry Club, 2.

Discussing basketball is one of Bill's chief enjoyments. But we see little of him since he commutes. Sincere and conservative, he will progress unaided.

Ernest H. Thorpe

Animal Husbandry

Framingham

1916. Kolony Klub, President, 2; Football, 1; Basketball, 2; Baseball, 2; Student Council, 2; Animal Husbandry Club, 2.

Smiling, curly-haired Ernie has won himself many friends. He has been very active in furthering the social interests of his Klub and of his Class.

Andrew Timoshuk

Greenkeeping Whitestone, New York

1915. Agronomy Club, 1.

An authority on golf and grass, Andy won renown for his success in playing a par 72 course in 73 under par. All in all, he is a very likeable fellow with a cheery smile.

Frederick Tompkins

Poultry Husbandry Lowell

1915. Poultry Club, 2.

Romantic Fred enjoys the wee hours of day and night most in bed. His motto, "To the nest—Try hard!" will prove helpful, we hope.

Edwin A. Toth

Poultry Husbandry Wallingford, Connecticut

1916. Kclony Klub; Football, 1, 2; Basketball, 1, 2; K. O. Club, 1, 2; Poultry Club, 2.

When not attending classes and such, Ed may be found haunting the "Mem" building. His lusty sneeze is as disturbing as a March blast.

Arnold V. Tribble

General Horticulture Worcester

1913. Basketball, 1, 2; Band, 1, 2.

As a member of the colorful College band, Arnie did much to increase its volume of music while wrapped in his huge bass horn. He may yet compete with the greenkeepers.

Herman Waldecker, Jr.

Floriculture
1916.

Braintree

A very retiring member of our group is Pete. But, in spite of his quiet self-containment, we now feel that we know him, and his likeable nature leaves a pleasant impression. We admire his independent spirit.

William G. Waldron

General Horticulture

Pittsfield

1917. Horticultural Show, 2.

"Going to Amherst?" inquired Bill unwittingly (and unfortunately!) of a cruising car. As a member of the bachelor apartments, he is rapidly qualifying for the rating of mother's helper.

Walter D. Williams

Poultry Husbandry

Stamford, Connecticut

1915. Alpha Tau Gamma, Club Historian, 2; Dance Committee, 2; Poultry Club, 2.

Hour after hour he diverts interested listeners with his Placement experiences in Spencer. Jocular Cy is well liked.

Grace R. Yuki

Floriculture

Turner's Falls

1911. Horticultural Show, 1, 2.

How easy it is to understand why Grace is so happily married! We are glad to have had her helpful, encouraging company. May her happiness constantly increase.

Stockbridge Athletic Board

On this group we rely for constructive criticism of our athletics. It is also their duty to approve of awards available to students in competitive sports. Concerned faculty members and team leaders compose the board. These members are:

Coach Lorin E. Ball
Coach Llewellyn L. Derby
Director Emory E. Grayson
Professor Curry L. Hicks
Director Roland H. Verbeck
Fred A. Anable, Track Captain
Alfred M. Chace, Football Captain
Paul Jenkins, Basketball Captain
Jason T. Kelley, Hockey Manager
Fred O. Lawrence, Track Manager
John J. Ruda, Jr., Basketball Manager
Wilbur P. Young, Football Manager

FOOTBALL

With eight lettermen returning to claim their positions, Coaches "Red" Ball and Alden P. Tuttle filled the vacancies with abundant new and promising material. The team was successfully organized and gave our first opponents a surprising upset, although two strenuously contested defeats followed. The next game was a decided victory for our team. But then they lost a close match which did not, however, dull their spirit. Later they played a scoreless tie and, finally, closed the season by winning their objective game. A favorable record, resulting from fine morale and splendid sportsmanship, is the notable achievement of Captain Chace and his followers.

Lettermen are as follows:

Seniors: Captain Chace, Allen, Alton, Christensen, Cornell, Fischer, Fournier, Keefe, Macintosh, Morey, Robbins, Toth; Freshmen: Boyce, Bush, Cunningham, Hair, Tucker.

Games and scores are as follows:

S. S. A.	26	Westfield High School	6
S. S. A.	0	Vermont Academy	6
S. S. A.	0	Conn. State Freshmen	72
S. S. A.	21	Dalton Boys Club	0
S. S. A.	6	National Farm School	9
S. S. A.	0	Essex Agricultural School	0
S. S. A.	6	Deerfield Academy	2

CROSS COUNTRY

Under the guidance of Coach Llewellyn Derby, Captain Fred Anable, and Manager Frederick Lawrence the cross country team established an undefeated record, the first in the history of the school. The squad of thirty men was composed of a few veterans and several promising freshmen. In the Senior Class letters were won by Captain Fred Anable, Randolph Blackmer, Daniel Gleize, Hammond Hosmer, Raymond Richardson, Philip Smith and Manager Lawrence. Freshmen earning letters were Captain-elect George Baker, Douglas Graves and Ralph Harris.

Meets and Points were as follows:

S. S. A.	20	Amherst College Freshmen	36
S. S. A.	22	State Junior Varsity	38
		Amherst College Freshmen	78
S. S. A.	15	Brattleboro High School	63
		Mt. Hermon School	74
S. S. A.	33	State Freshmen	66
		Amherst College J. V.	64
		State Junior Varsity	68
		Amherst College Freshmen	153
S. S. A.	18	Fitchburg State Teachers	37

*Low score wins.

HOCKEY

The Stockbridge Hockey squad played a successful season and made only a slightly less spectacular showing than the Cross Country Team. Some of the games were met without an opportunity for practice because the ice was unsuitable. However, from two tied games, the team progressed under Coach William Bullock to win their following contests. During the Winter Carnival they played a splendid game and defeated the State Freshmen.

Letter awards to Seniors: Edward Brown, Wesley Jacoby, Pearson Macintosh, Kenneth Mason, Richard Robbins, William Ross, and Manager Jason Kelley; Freshmen: Donald Baldwin, Harry Cunningham, Joseph Goldrick, John Keenan, Anthony Merino, Captain-elect Edward Norberg and William Prindle.

The scores and schedule are as follows:

S. S. A.	0	Deerfield Academy	0
S. S. A.	3	Holyoke High School	3
S. S. A.	4	Greenfield High School	1
S. S. A.	3	Amherst College Varsity	0
S. S. A.	3	State Freshmen	0

BASKETBALL

Coached by "Red" Ball and led into an active, successful season by Captain Paul Jenkins, our team won seven of their scheduled games. Supposedly handicapped by lack of court practice and material, the outlook for the team was dull. However, it subsequently proved itself the most capable since 1930. With efficient supervision and fullest cooperation from the players, letters were earnestly won by Captain Paul Jenkins, Edwin Hartley, Carl Jekanowski, and Manager John Ruda of the Class of 1936. Among the Freshmen, Captain-elect Frank Wojtkiewicz, Walter Wanszyk, and Robert Eisenhower were awarded letters.

Games and Scores:

S. S. A.	16	Smith Academy	8
S. S. A.	59	Winchester High School	12
S. S. A.	12	Westfield High School	22
S. S. A.	28	Turners Falls High School	24
S. S. A.	30	Chester High School	13
S. S. A.	31	Amherst High School	16
S. S. A.	18	Vermont Academy	31
S. S. A.	16	Smith Agricultural School	30
S. S. A.	25	Hopkins Academy	17
S. S. A.	27	Suffield School	25

WINTER TRACK

Our Winter Track Team made a very creditable showing in spite of its inability to capture first honors. Competing with the State students in the inter-class meet, the team fought for a deserved third place. In the second, a triangular meet with Freshmen of State and Amherst College in competition, Stockbridge won second place. The final event with Wilbraham and Suffield Academies was as successful, for our team again took second honors.

The following trackmen received letters: Seniors; Captain Fred Anable, Philip Smith and Manager Frederick Lawrence; Freshmen; Captain-elect Arthur Hartshorn, Sam Lowery and George Baker.

Schedule of meets and scores as follows:

Interclass Meet

Stockbridge	23	Points
Sophomores	45-1/2	"
Freshmen	26-1/2	"
Seniors	2	"
Juniors	2	"

Triangular Meet, I

In grateful recognition of the constant diligence with which he has supported all of its social functions, Kolony Klub takes this opportunity to sincerely thank Dr. Phillips. And each member wishes personally to express his earnest hope that the future will more than fulfill all present expectations of splendid achievement and that it will bring the true satisfaction so richly deserved.

AGRONOMY CLUB

Under the able guidance of President Frank S. Bishop the beneficial activities of the year reached their climax in the discussion of the relation of agronomy to agriculture. Many earnest students attended the meetings to hear authorities expose their particular work. Among the most important lecturers were Mr. Ralph Donalson, whose subject was "Potatoes in Particular", and Mr. John Abbot, who answered the question "Do you Believe in Fertilizers?" Open forums were led by Nicholas B. Jacobson and other members.

ANIMAL HUSBANDRY CLUB

Having been a recognized activity for several years, the club sponsors lectures by capable persons on topics of general agricultural interest. Since both State and Stockbridge men support it, the attendance is always large. This year a judging contest was held, and Nelson Newell, '37 won first prize.

A splendid program was presented by the following:

Mr. J. B. Parker, Washington, D. C.

Mr. Lewis C. Watt, S. S. A. 1928, Medfield State Hospital

Mr. Orrin S. Pierson, Otisville, New York.

Mr. Carey Hawlett, M.S.C., 1932, Mt. Hermon School.

Professor H. S. Garrigus, Connecticut State College

Mr. Hartwell E. Roper, M.S.C. 1927, Kirkwood, Pennsylvania.

POULTRY CLUB

At a social given by Poultry professors on November 6, 1935, Professor J. C. Graham suggested the reorganization of the club. This aroused such enthusiasm that officers were immediately elected. With the first session since 1929, the new members successfully attempted to promote interest in the poultry industry. Constant assistance from the department enabled club members to enjoy several educational lectures. Some of these were:

Dr. Charles L. Gibbs, M.S.C. Veterinary Science Department
 Dr. K. L. Bullis, M.S.C. Veterinary Science Department
 Mr. Schoonmaker, South Amherst
 Mr. Paul Shore, Bernardston

The STOCKBRIDGE PLAYERS Present

THE BLACK FLAMINGO

by Sam Janney

Glittering jewels entice peasants to attempt fiendish crimes and lure French nobles to recoup their losses in this stirring drama of the days just following the fall of the Bastille. The social classes of France are all involved in this rapidly moving interpretation of the mysterious disappearance of the Queen's priceless necklace—a string of diamonds which even the bloody revenues of that corrupt government could not afford.

Interest is intriguingly sustained by the strange Cagliostro and the scarcely less singular Trigaud. Horror is ever imminent but mostly avoided. Not soon shall we forget the suspended weirdness of the theme which a ghostly violinist intensifies nor the skillful portrayal by classmates under the able direction of Mr. Harold W. Smart, who is well assisted by Mr. James Robertson, Jr.

THE LEADING PLAYERS

Mrs. Alan W. Chadwick
Mrs. Charles F. Fraker
Ann Haskell
Barbara E. Schulte

Extension Service

A graduate of Massachusetts State College, he has been director of the Extension Service since 1926. From 1907 to 1915 he was a successful fruit grower at Littleton. Then he was the Norfolk county Agricultural Agent for five years. Between 1920 and 1926 he was Director of Markets in the Massachusetts Department of Agriculture. At present he is also Chairman of the committee on Organization and Policies of the extension section of the Land Grant College Association.

OUR EXTENSION SERVICE

Feeling that graduation should but mark an advance in our search for knowledge, it seemed very appropriate to indicate the educational opportunities provided by the Extension Service and by the Waltham Experiment Station. Through them we are enabled to keep in touch with the progress made in our respective fields of endeavor, and it is in the sense of their relation to the College that we may always retain an active connection with it.

Editor's Note.

A progressive nation such as ours realizes that education should not stop when an individual has completed college or other school training. Therefore, we find innumerable adult education programs which are available to citizens.

To the Stockbridge School of Agriculture graduate, cooperative extension work in agriculture offers an unusual opportunity to continue education after graduation. But before outlining these opportunities, let me sketch for you something of the history and organization of extension service work.

Popular education of farming people, known as agricultural extension work, had its beginning in the early agricultural societies, the first one being organized about 1785. In 1792 the Massachusetts Society for Promoting Agriculture recommended that "the members in different parts of the state should meet at stated times in places convenient to themselves and invite the aid of others who are desirous of forwarding improvements in agriculture." This society as early as 1812 sent out letters to stimulate farmers in improving agriculture. These letters were read by town clerks at town meetings and by the clergy.

In 1839 there was begun a series of weekly meetings in the hall of the Massachusetts House of Representatives for the purpose of discussing agricultural questions.

When the Massachusetts State Board of Agriculture was established in 1852 one of the duties of the secretary was to deliver lectures on the practice and science of agriculture. Charles L. Flint, for whom Flint Laboratory was named, was the secretary of this board.

The state board of agriculture disseminated information through their annual volume known as "Agriculture of Massachusetts" and also printed circulars on renovation of pastures, grain crops, fruits, fencing, cattle husbandry, diseases of vegetation, and culture of grasses. These were distributed to teachers to be read publicly in schools and loaned out from week to week to be read in the families in the farming districts.

In 1855, a speaker stated that "women should be invited to attend the meetings of these agricultural clubs and some subjects such as butter making should be of special interest to them and that the state would do well to give financial aid to the clubs." The clubs referred to were local and county farmers' clubs.

Farmers' Institutes Develop

About this time farmers' institutes were developing in many states. In fact, by 1890 institutes or equivalent public meetings were established on a more or less permanent basis in twenty-six states. In some cases these institutes were conducted by the state board of agriculture, in others by the land grant college, and in others by private organizations interested in agriculture.

In 1889 there was introduced in Congress a bill providing for federal support of farmers' institutes. Up until this time farmers' institutes were supported with state, county, or individual funds. Our own Dr. Kenyon L. Butterfield played a considerable part in the development of these institutes and in later agricultural education.

Of course, during all of this time the land-grant colleges had been gradually developing their extension work. In fact, by 1905 extension work in the colleges had become sufficiently important to attract the attention of the Association of American Agricultural Colleges and Experiment Stations. At that time they created a standing committee on extension work. By 1910 more than thirty institutions had organized extension departments.

In 1914 Congress passed the Smith-Lever Extension Act and its acceptance by the states put the extension service work on an entirely new basis. Naturally with this new organization in the field the farmers' institutes gradually declined.

The Smith-Lever Cooperative Extension Act provides—

“that cooperative agricultural extension work shall consist of giving instruction and practical demonstrations in agriculture and home economics to persons not attending or resident in said colleges in the several communities and imparting to such persons information on said subjects through field demonstrations, publications, and otherwise, and that this work shall be carried on in such manner as may be mutually agreed upon by the secretary of agriculture and the state agricultural college or colleges receiving the benefits of this act.”

Each state receives a set amount of federal funds and additional funds on the basis of its rural population. A certain portion of these funds must, however, be offset by appropriations from the state legislature or by contributions from county, college, or individuals within the state.

All Counties But One Start Work

In 1914 there were sixteen extension service workers at the Massachusetts Agricultural College. By the end of 1918 all counties of Massachusetts, with the exception of Suffolk, had formed organizations to conduct extension work. Dukes and Nantucket counties cooperatively employed agricultural and home economics agents. If a county employed only one worker, it was usually an agricultural agent. Whether the next worker was a home demonstration or a club agent depended upon the character of the work in the individual county.

Work with homemakers and the young people had been developing so that with the passage of the Smith-Lever Act they were made a definite part of extension work; the work with young people is now known as 4-H club work.

The impetus given extension work by the war conditions of 1917 and 1918 proved the value of organized aid to farmers. In 1918 the farm bureaus in Massachusetts began to re-organize in accordance with that year's legislation which made these organizations public agencies. It was from this re-organized system that the present extension system in Massachusetts grew. Today there is an organized extension force in Massachusetts of thirty-four state workers and sixty-eight county workers.

A Cooperative Enterprise Publicly Supported

Cooperative extension work is, as has been pointed out, a cooperative enterprise by the United States Department of Agriculture at Washington, the land-grant colleges in the various states, and the extension services in the counties. Being organized in this manner and since it is supported by public funds, the service is free to all citizens.

Heading the work up for the nation as a whole then is the extension division of the United States Department of Agriculture. The workers there disseminate information and assist state workers in the organizing and coordination of the work.

The administrative officers and specialists from the state extension services in turn assist the county workers in organizing and in disseminating the necessary subject matter material; this latter being done through printed material, radio, and numerous other methods. There is no need to say that the knowledge of the extension service workers

is based on the work of the agricultural experiment stations and upon practical demonstrations in the field.

The county worker acts as an organizer or clearing house for the information which is available. With the help of the state workers, these county workers schedule study groups according to the needs and desires of the county or community. They arrange for demonstrations to prove better practices and then arrange meetings to bring these demonstrations to the public. They distribute printed or mimeographed leaflets. And they of course give individual service through farm and home visits.

Make Contacts Through County

If an individual wishes information or to take a part in these study groups, his first point of contact should be through the county office: the agricultural agent for agricultural material, the home agent for home economics, and the 4-H club agent for work with juniors.

In many instances the county worker is able to supply the information desired. If not, he calls upon the college worker who specializes in the particular subject. The college extension worker turns, if need be, to the federal service for help in solving the problem.

The extension service not only assists people in solving the individual problems of the farm or the home, but assists farm organizations in cooperative endeavors such as marketing and county and state program planning. It also assists in the administration of the national program for the betterment of agriculture. It should be understood, however, that the service has no regulatory powers. Its service and programs are entirely free and voluntary.

Each state, of course, offers agricultural programs which are particularly adaptable to its farming areas. In Massachusetts the principal programs conducted are economics and farm management, animal husbandry, forestry, horticultural manufactures, fruit and vegetable storage, plant pathology, pomology, home grounds improvement, agronomy, poultry, engineering, and vegetable gardening.

For the homemaker, the Massachusetts service offers programs in clothing, child development, nutrition, home management, home furnishings, and recreation.

In the 4-H club or junior activities, Massachusetts has various projects in domestic science, general farming, forestry, handicraft, ornamental gardening and many allied subjects.

A statement of this length can hardly do credit to an idea which has been developing for one hundred and fifty years, perhaps longer, and to a vast national organization, which for the past twenty-two years has been responsible for the carrying out of that idea. I hope, however, that I have given to you men and women of the Stockbridge School of Agriculture, some indication of the opportunities which extension work offers to continue your education after graduation.

WALTHAM FIELD STATION STAFF

Top row: (Left to right): Warren D. Whitcomb, Entomology; Emil F. Guba, Plant Physiology; George Graves, Nurseryculture.

Bottom row: Paul W. Dempsey, Horticulture; Harold E. White, Floriculture; Ray M. Koon, Director; Robert E. Young, Vegetable Gardening.

THE WALTHAM FIELD STATION

Twenty years ago, a small group of vegetable gardeners, representing the Boston Market Gardeners Association was instrumental in securing an appropriation of eight thousand dollars from the State Legislature for the establishment of an experimental and demonstrational station to study the problems relating to vegetable gardening in the eastern part of the State. Directed and encouraged by Professor H. F. Thompson, then Head of the Department of Vegetable Gardening at Massachusetts Agricultural College, twelve acres of land on Reed Street, Lexington, were purchased and a small greenhouse and office building erected thereon. From this modest but hard won nucleus, the Field Station began its career of service to the commercial and amateur gardening public.

Among the first problems demanding immediate attention was the need for better control of the celery blight fungus. The trained plant pathologist who was assigned to this investigation worked out treatments which are in general practice today. Seed improvement work was also started and the first steps were taken in the selection and breeding of the now well known Field Station strains of Hutchinson carrot and Bel-May lettuce.

Early in 1923, Professor Thompson resigned to enter a successful career as a market gardener at North Attleboro, being succeeded by Professor R. M. Koon, who is the present Head of the Field Station.

During this same year, the College was able to convince the Administrators of the Cornelia Warren Estate at Cedar Hill, Waltham, that it could use advantageously a portion of that property for educational purposes in accordance with the terms of the

late Miss Warren's will. As a result, about twenty-five acres of excellent farm land (formerly a corn field) and a large section of meadow land was deeded to Massachusetts Agricultural College. With this improved location available, arrangements for moving the Station from Lexington to Waltham were put into operation immediately. The land and buildings at Lexington were sold and early in 1924 the work was officially transferred to the new office and greenhouses at Cedar Hill, Waltham.

In 1925 the Staff was enlarged by the appointment of an entomologist who was charged with the development of improved methods of insect control.

Throughout this period the demands for service in all lines of horticultural endeavor had been steadily increasing, and in 1929 an insistent group of florists secured a legislative appropriation to enlarge the office building, erect another greenhouse, and to maintain a research worker in floriculture.

Heretofore, this branch of the College was known as the Market Garden Field Station, but with the increasing expansion of its activities this obviously misleading name in 1930 was changed to that of THE WALTHAM FIELD STATION, its present designation.

During its early life, the Field Station was an administrative orphan, decisions regarding its operation and existence being arbitrated by a board composed of the Director of Experiment Station, Director of Extension Service, and Head of Division of Horticulture. In September, 1930, however, its financial and administrative responsibilities were completely absorbed by the Experiment Station.

In 1935 the Field Station was still suffering from growing pains, for in that year the Massachusetts Nurserymen's Association secured the appointment of a specialist in problems of nurseryculture together with additional office space and greenhouse equipment for work with hardy plant material.

At present, the Staff of the Waltham Field Station is actively engaged in research, demonstrational and service work in general horticulture, vegetable gardening, floriculture and nurseryculture as well as in the biological sciences of plant pathology and entomology. No regular college courses of instruction are given, but short courses consisting of two to ten lectures in both commercial and amateur gardening have been conducted in recent years. In 1935-1936 over one thousand men and women enrolled for these classes. The experimental plantings of vegetables, fruit, flowers, and woody plants receive much favorable newspaper publicity and now attract almost ten thousand visitors annually. In fact, during the past two years, it has been necessary to provide special attendants in the evenings and on Sundays to care for these visitors. The correspondence regarding professional subjects exceeds seven thousand letters annually.

Foremost among the featured activities is the Annual Field Day held the first Wednesday in August. On this day the work of the Waltham Field Station is officially open for inspection and interest is increased by friendly competition among rival manufacturers of tractors, cultivators, and other gardening equipment. In 1919, forty-nine vegetable growers attended the first Field Day at Lexington; in 1935, at the seventeenth Annual Field Day the Station grounds at Waltham were thronged with twelve hundred visitors interested in all phases of horticulture.

Favored by a liberal policy, the Waltham Field Station has been able to keep up-to-date with horticultural progress and also to contribute its share of new discoveries. Its keynote is Service, and its future growth depends entirely upon its capacity to meet the continually increasing needs and demands of the public.

THE FIRST WINTER CARNIVAL

February sixth, seventh, and eighth 1936 were devoted to the official introduction of organized winter sports to our Campus. Many energetic students participated in the colorful events and their ardent support made the first Winter Carnival a successful venture. Stockbridge, represented by Thomas J. Goodwin, '36, was ready and willing to give State strong support on the occasion.

The thunder of miniature bombs announced its inception on Thursday as Stockbridge defeated the State Freshmen 3-0 in hockey. Entertainment enough was given that evening by a thrilling basketball game in which a somewhat superior Springfield College Team managed to subdue State.

Friday the clear, crisp weather was ideal for the skating events in which Jackimczyk, '37, won a second and three thirds despite keen competition. At the same time, a fashion show sponsored by clothing stores was being staged in Stockbridge Auditorium. In the early evening the Vienna Boys' Choir evoked great admiration with their singing. A Military Ball followed at which the Carnival Queen and her attendants were selected.

Skiing was featured Saturday at Bull Hill in Leverett. Foley, '37, was third in the difficult solaming contest. Then he and Jackimczyk gathered more honors by winning fourth and fifth places respectively in the fatiguing two and-a-half mile cross country race. Finally, Bush, '37, masterfully took first place in the ski jumping. Assuredly, Stockbridge had a very real part in this memorable innovation to student activities.

That afternoon State defeated the Amherst hockey team, 1-0. Later, college champions did exhibition swimming. And figure skating, accompanied by a display of fireworks, completed the carnival program.

As official photographer of the Carnival, Professor Rollin H. Barrett filmed many interesting episodes subsequently enjoyed by all. His interest typifies the favorable, co-operative attitude of the faculty. Everything indicates that the Winter Carnival will become an established tradition.

COMMENCEMENT COMMITTEE

CLASS DAY COMMITTEE

General Chairman	Charles W. Jacoby
Picnic Chairman	Fred A. Anable
Dance Chairman	Kenneth Randall Mason
Class Day Chairman	Ernest H. Thorpe
Marshals	
Edward T. Brown	Paul Jenkins

CLASS DAY SPEAKERS

Oration	Roland Hall
History	Pardon W. Cornell
Prophecy	Walter D. Williams

GRADUATION SPEAKERS

COMMENCEMENT PROGRAM 1936

FRIDAY, MAY 29

- 10:00 A. M. Class Picnic—Lake Rohunta
9:00 P. M. Dances

SATURDAY, MAY 30

- 10:00 A. M. Class Day Exercises—Rhododendron Garden
12:00 M. Alumni Meeting—Memorial Hall
12:45 P. M. Alumni-Senior Luncheon—Draper Hall
1:30 P. M. Varsity Track Meet and High School Relays—Alumni Field
3:00 P. M. Baseball Game, Alumni vs. Stockbridge '36—Alumni Field
8:00 P. M. The Stockbridge Players present, "The Black Flamingo" at Bowker Auditorium

SUNDAY, MAY 31

- 4:30. P. M. Baccalaureate Sermon by the Reverend Charles W. Merriam of Deerfield, Bowker Auditorium.
6:00 P. M. President's Reception to members of the Graduating Class, their Guests and Alumni—Rhododendron Garden

MONDAY, JUNE 1

- 10 A. M. Commencement Exercises—Bowker Auditorium
Commencement Speakers
J. EMERSON BRANSFORD
JOHN W. HOWE, JR.
KATHERINE B. OFFUTT
RAYMOND W. RICHARDSON
Presentation of Diplomas,
President HUGH P. BAKER

ACKNOWLEDGEMENT

As we contemplate the results of our efforts we immediately realize our indebtedness to all who have materially aided us in whatever has been accomplished.

To the Faculty as a whole and to our Classmates we would extend a sincere word of thanks for their helpful cooperation. We are most grateful to Professor Frank A. Waugh, Director Ray M. Koon, and to Director Willard A. Munson for their fine contributions.

The freely given assistance of the Short Course Office Staff has been a constant encouragement. And we are most appreciative of the interest shown by Mr. C. A. Nichols of the Charles W. Burbank Company, Printers; Miss Dorothy C. Cooper of Howard - Wesson Company, Engravers; and Mr. H. E. Kinsman, Photographer.

IT HAS again been most pleasant to have been permitted to assist in the production of *The Shorthorn*.

A marked feature of our entire experience with Stockbridge Shorthorn Staffs, has been their unfailing ability and desire to work understandingly and conscientiously, and we can truthfully say that we do not, in our daily work, find anywhere, finer co-operation, more pleasing contacts, or greater intelligence, in school and college work. We salute the Shorthorn Staff of 1936.

And we wish to add a word of earnest appreciation of the faculty supervision and co-operation. It is superb.
